## General Information

**Proceedings.** All accepted full papers (submitted by the required deadlines) will be published (with an ISBN) and distributed worldwide.

**Student volunteers.** The success of the conference depends upon the diligent work of the student volunteers. If you would like to help at the conference in return for waiver of the registration fee, please contact: Student Volunteer Chair, [volunteer@ahfe.org](mailto:volunteer@ahfe.org)

## Exhibits

**Exhibits** provide state-of-the-art ergonomics products, systems and services for the users, professionals, and researchers in the AHFE field. Organizations interested in exhibiting or advertising in the Advance Program and/or Final Program should contact the Conference Communication and Exhibits Chair: Abbas Moallem, [exhibits@ahfe.org](mailto:exhibits@ahfe.org)

**Exhibitors** who have committed to exhibit by 15 November 2013 will be listed in the Advance Program, Final Program, and the Conference Proceedings, which will be distributed worldwide.

5th International Conference on Applied Human Factors and Ergonomics 19-23 July 2014  
Jagiellonian University, Kraków, Poland

Kraków - St. Mary Church

## Kraków

Kraków is the second largest and one of the oldest cities in Poland. Situated on the Wisla River in a valley at the foot of the Carpathian Mountains. The city dates back to the 7th century. Kraków has traditionally been one of the leading centers of Polish academic, cultural, and artistic life and is one of Poland's most important economic hubs. Its Old City (Stare Miasto) is home to about six thousand Renaissance, Baroque and Gothic buildings and more than two million works of art.

## Invitation to AHFE 2014

You are cordially invited to participate in the 5<sup>th</sup> International Conference on Applied Human Factors and Ergonomics 2014, July 19-23, 2014, and the affiliated 3<sup>rd</sup> International Conference on Human Factors and Ergonomics in Healthcare, 3<sup>rd</sup> International Conference on Cross-Cultural Decision Making, 3<sup>rd</sup> International Conference on Applied Digital Human Modeling, 2<sup>nd</sup> International Conference on The Human Side of Service Engineering, 2<sup>nd</sup> International Conference on Affective and Pleasurable Design, 2<sup>nd</sup> International Conference on Human Factors in Transportation, 2<sup>nd</sup> International Conference on Science, Technology, Higher Education, Society in the Conceptual Age: STHESCA, 2<sup>nd</sup> International Conference on Ergonomics In Design and 15<sup>th</sup> International Conference on The Human Aspects of Advanced Manufacturing, which are jointly held under one management and one registration. The conference objective is to provide an international forum for the dissemination and exchange of scientific information on theoretical, generic, and applied areas of ergonomics, including, physical ergonomics, cognitive ergonomics, social and occupational ergonomics, cross-cultural aspects of decision making, ergonomics modeling and usability evaluation, human digital modeling, healthcare and special populations, safety and ergonomics in manufacturing, and the human side of service engineering. This will be accomplished through the following six modes of communication: keynote presentation, parallel sessions, demonstration and poster sessions, tutorials, exhibitions, and meetings of special interest groups. The five-day conference will start with tutorials. The tutorials will be held on July 19-20, 2014. Tutorials will be offered (both half-day and full-day) at introductory, intermediate, and advanced levels covering the entire spectrum of the conference.

All submitted abstracts will be peer-reviewed by three independent referees from the international program boards. It is anticipated that a broad range of research and applied topics will be covered during the conference. Papers in the theoretical category should deal with models, concepts, and structures; papers in the generic category should present research results of broad applicability; and papers in the applied category should show how the demands of particular application areas shape the way generic research is translated into practical innovation.

## Proposals for Participation

**Parallel presentations.** An abstract of about 500 words should be submitted through our website ([www.ahfe2014.org](http://www.ahfe2014.org)) and include a statement of the objective and significance of the proposed presentation, description of methods, and discussion of results. Please indicate to which Board your submission should be sent for review. In some cases, when considering submissions for the parallel presentations, authors should consider whether their material may be more effectively presented in the poster/demonstration sessions. To provide a greater opportunity for more people to present at the Conference, each accepted paper should have a different conference registrant. However, co-authors may appear on multiple papers.

**Tutorials.** An abstract of 300 words should state the objective, content, target audience, a bio-sketch about the presenter(s) and A/V requirements. Indicate whether the proposed tutorial is for a half-day or full-day. Please submit abstract through the web.

**Poster/demonstration sessions.** This session has been especially designed to accommodate the presentation of late-breaking scientific and professional news, work in progress, work which can be more effectively presented via demonstration or when the author feels more comfortable presenting the material in written form or demonstrating it rather than by oral presentation. An abstract of 300 words should be submitted through the web and should include the essence of the planned presentation. Equipment needed for demonstration is the responsibility of the author. To provide a greater opportunity for more people to present at the Conference, each accepted poster should have a different conference registrant. However, co-authors may appear on multiple posters.
